DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-22 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: This invention deals with a transmission line comprising a generally tubular outer conductor having a high strength material adjacent a highly conductive material, wherein a dielectric material is disposed intermediate inner and outer conductors, wherein the dielectric material is initially loosely fitted relative to at least one of the inner and outer conductors, wherein at least one of the inner and outer conductors is further deformed to provide interference fit with the dielectric material (claims 1 & 19). The above stated claim limitations, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed June 29, 2005 have been fully considered and they are persuasive. Specifically, the applicant's argument that "..none of the references disclosed disclose the dielectric material being loosely applied to the inner or outer

conductor, wherein at least one of the inner and outer conductors is deformed to compress (i.e. interference fit) the dielectric such that independent motion is substantially abated during deployment of the downhole tool", is persuasive and therefore the claims have been allowed.

Communication

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (571)-272-1978. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on (571) 272-2800 ext 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
